LOCATION & AMENITIES

Belvedere Residence is ideally located within the conservation area of Chapel Ash. It is extremely easy to access, positioned adjacent to the junction of the ring road and provides access to Wolverhampton city centre.

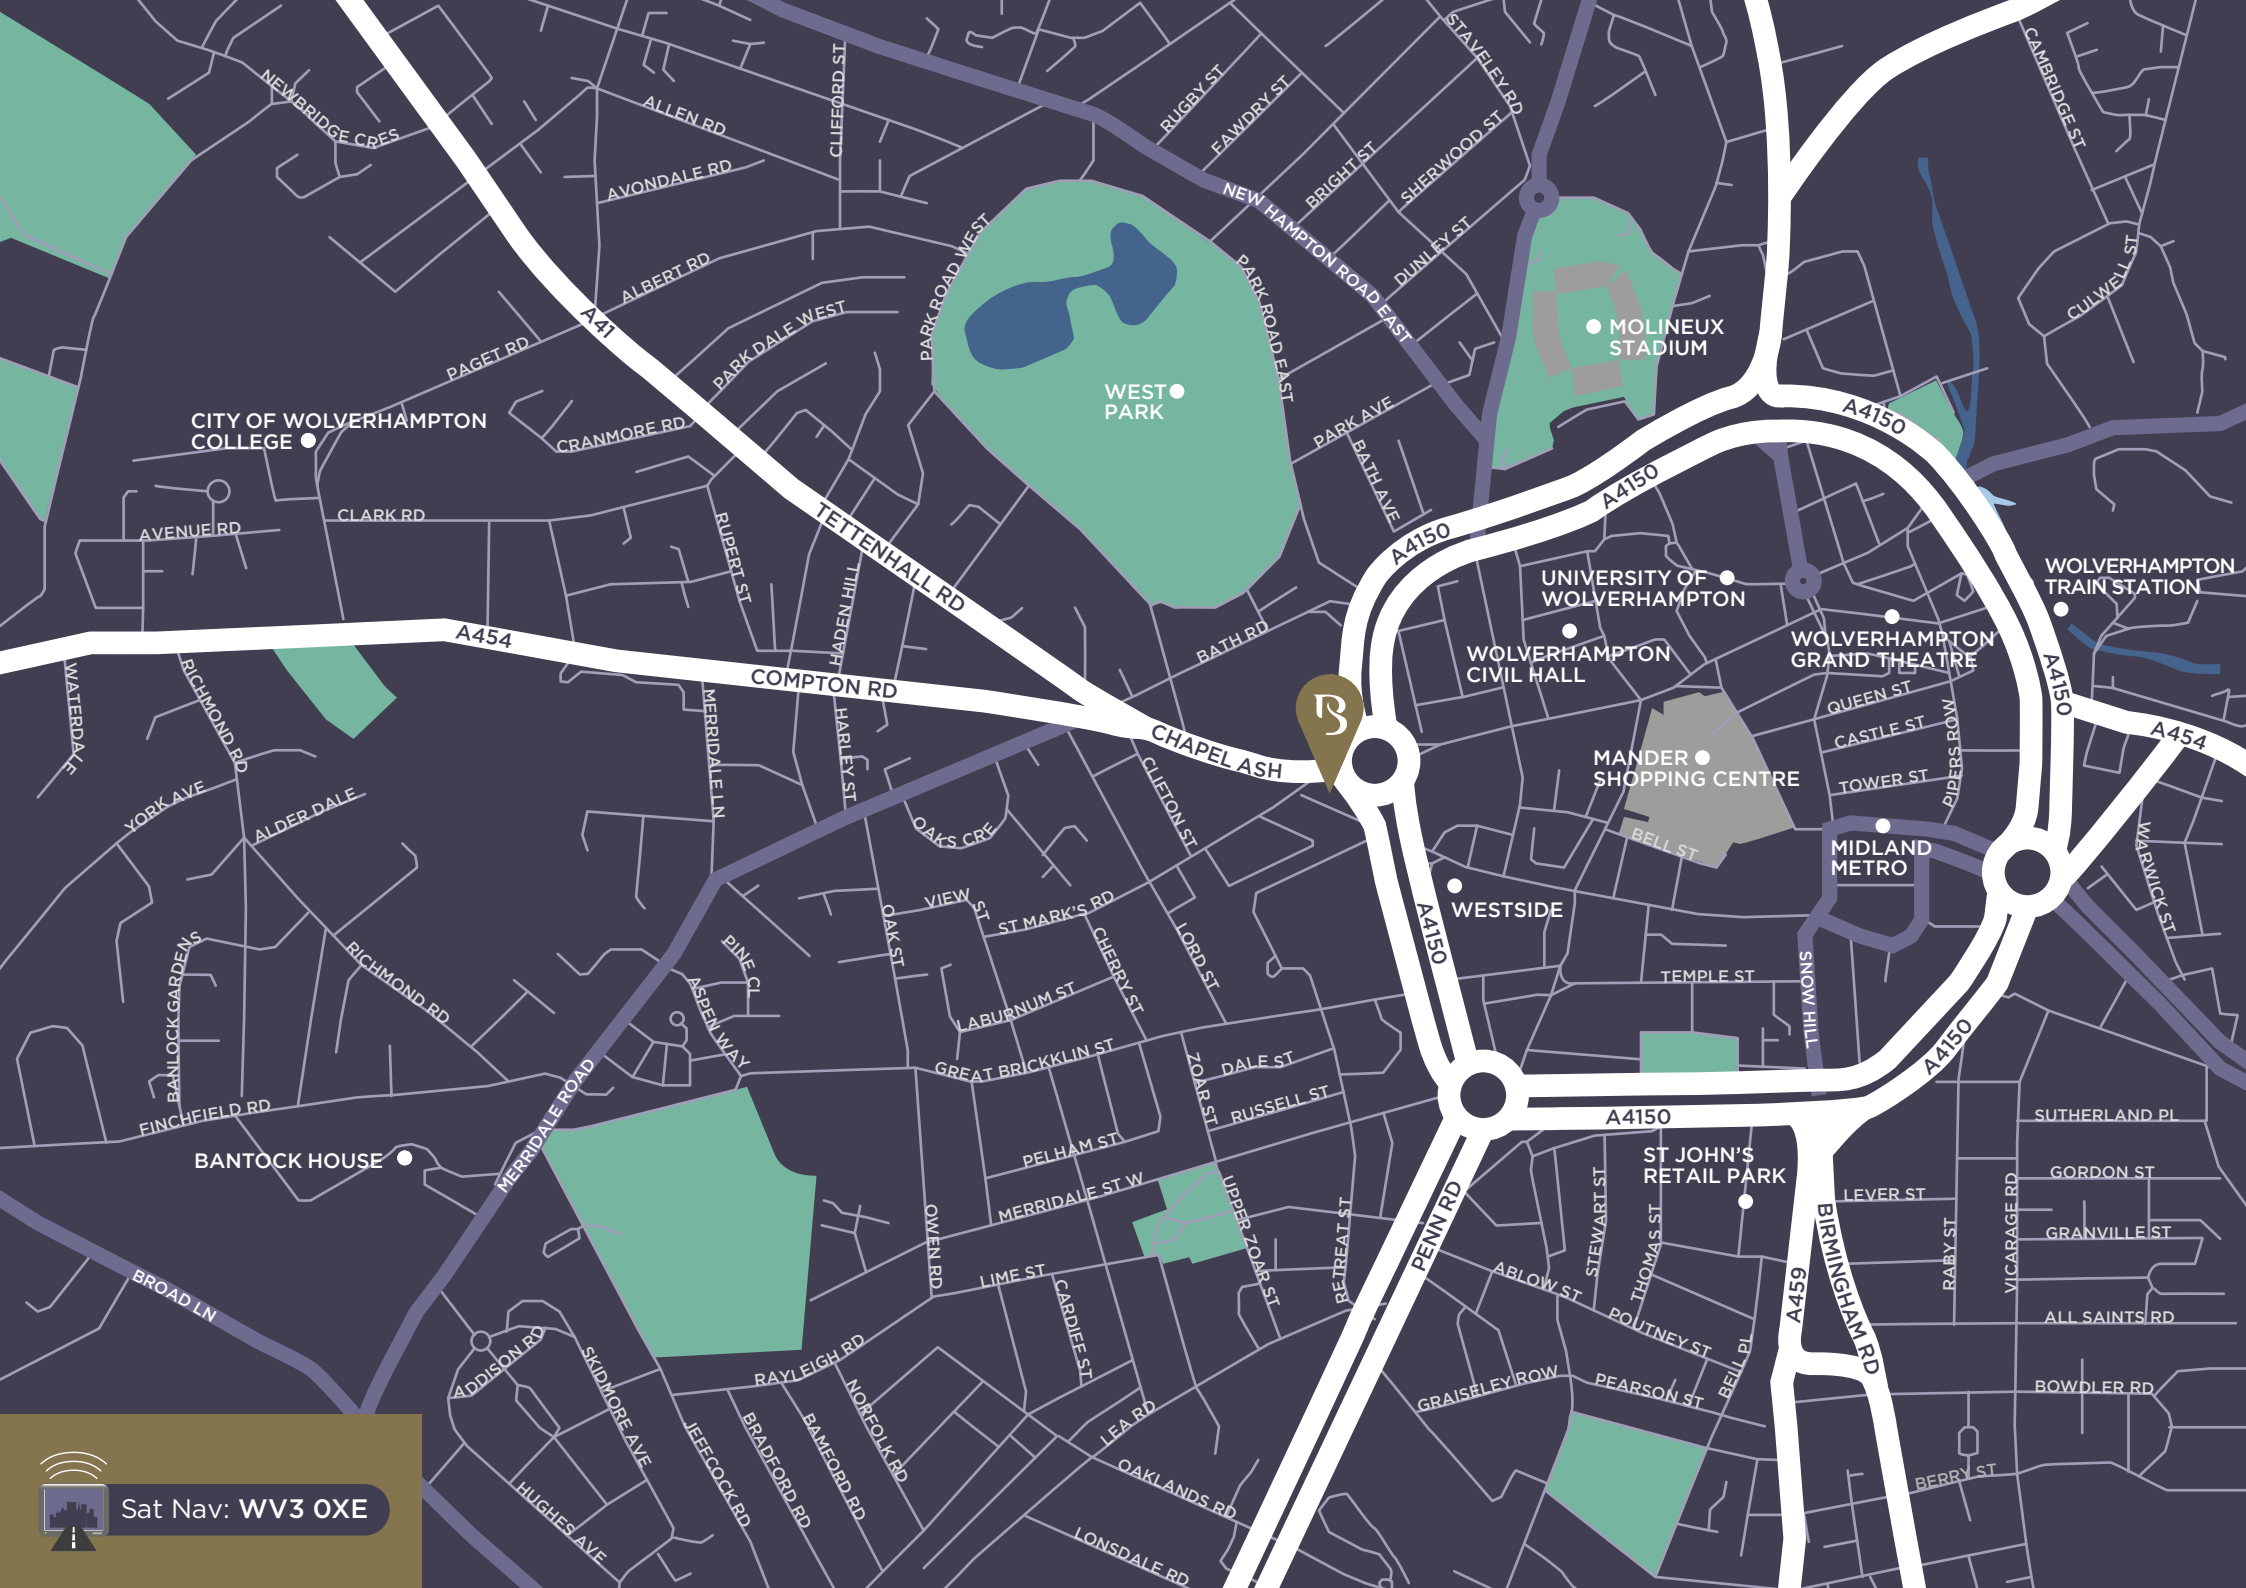

Excellent transport links including Wolverhampton Train Station and the new Metrolink extension (part of the new interchange project) allowing easy commuting to the whole of the Midlands and beyond.

The development is in a perfect location because of its proximity to Birmingham. Only 16 minutes and 99 minutes away by train from both Birmingham and London respectively, Wolverhampton has everything on its doorstep and all within easy access to the UK's most exciting cities.

Belvedere Residence is perfectly placed for residents to enjoy everything this leading city has to offer with a range of facilities on the doorstep. This includes the brand new approved Westside leisure and retail complex scheme, which is literally a stones throw away. Residents also benefit from being right in the city centre with access to shops, bars and restaurants as well as being directly opposite Sainsbury's supermarket. This exciting development is perfect for those looking for the city lifestyle.

MARKET PLACE

WOLVERHAMPTON

A WORLD CLASS CITY OF HISTORY, INNOVATION AND CONNECTIVITY

Wolverhampton is going places. This young and vibrant city with a population of 254,000 is one of the top ten growing economies in the UK* and is currently enjoying record levels of private and public investment with £3.7 billion pounds being injected into regeneration projects citywide, including £992 million pounds either on site or planned in the city centre alone.

A CITY OF OPPORTUNITY

As an integral hub for thousands of successful businesses directly in the middle of the UK, Wolverhampton attracts some of the brightest minds and companies in the country.

Sector leading firms such as Carillion, Jaguar Land Rover, Marston's, Moog, UTC Aerospace and Wiggle all call the City of Wolverhampton home and the i54 strategic employment site north of the city centre is the most successful enterprise zone in the country attracting high quality jobs to the area.

LOCATION

The City of Wolverhampton is the perfect, centralised location offering outstanding national and international reach. Located right at the heart of the UK's high speed rail (HS2) and motorway networks with air travel easily accessible just 27 miles away.

A gateway between the historic Black Country and the beautiful countryside of Shropshire and Staffordshire, and also only 17 miles from the city of Birmingham — Wolverhampton is the natural choice for residential development.

UNIVERSITY

The University of Wolverhampton is ranked the 2nd most employable university in the UK — and is one of nine top quality universities in the region that produce a pool of 50,000 graduates every single year.

The University of Wolverhampton is investing £250 million into new buildings, education and facilities including the recently completed £18 million Business School.

KEY DEVELOPMENTS

WESTSIDE

The £55 million leisure-led Westside scheme features an illuminated public square, a multiplex cinema, 50,000 square feet of additional leisure space, new restaurants covering 40,000 square feet, a 100-plus bed hotel and a multi-storey car park all lined up for phase one. Phase two will deliver more than 300 new city centre homes and 50,000 square feet of retail and leisure space. Westside is expected to be completed by early 2020, creating a destination which will serve the city for generations to come.

CANALSIDE QUARTER

An area packed with history and a past industrial heritage, the canal basin to the north east of central Wolverhampton has been an untapped hidden gem for many years.

Over the next few years it will be transformed into the Canalside Quarter, utilising its unique character to provide a destination for visitors with shops, walkways, cycle paths and leisure facilities.

MOLINEUX QUARTER

Many major cities are synonymous worldwide with their football clubs and the City of Wolverhampton is no different. The club is currently working together with the City Council and the University of Wolverhampton on a vision for the Molineux Quarter to create a striking northern gateway to the city which will considerably improve the pedestrian and cycling experience in the area. Sitting alongside the stadium is the new £18 million Business School, complementing the university's growing city campus.

THE INTERCHANGE

The interchange area is being transformed via £120 million of public and private investment, to create a modern gateway to the city centre with a new railway station, enhanced facilities for motorists and cyclists and a Metro extension. The interchange will bring bus, rail, and metro into one integrated commuter hub together.
